

Motility Learning Zone

Thursday, 25 June 2026

pH-impedance Course - 12:45-14:05

Esophageal and Anorectal Manometry and EndoFLIP - 14:15 - 15:55

Friday, 26 June 2026

pH-impedance Course - 09:15 - 10:45

Esophageal and Anorectal Manometry and EndoFLIP - 11:15 - 12:45

We are pleased to invite you to the **Motility Learning Zone** at the ESPGHAN Annual Conference in Lille 2026 — an exclusive, hands-on opportunity to explore and deepen your understanding of pediatric motility investigations and meet experts in the field.

The course offers a comprehensive learning experience. Participants will gain practical insights into investigation protocols, data analysis, and result interpretation through two focused sessions.

Details

Capacity: Up to 30 participants per session

Format: Hands-on, interactive learning

Days: Two identical days, each including both sessions

Sessions

- pH-Impedance Course, 1 hour 20 minutes
Explore the fundamentals of pediatric pH-impedance monitoring, including protocols, data interpretation, and case-based discussion. Hands-on practice with analysis of easy, intermediate and difficult cases.
- Esophageal and Anorectal Manometry & EndoFLIP, 1 hour 40 minutes
A combined extended session covering esophageal and anorectal manometry as well as EndoFLIP techniques, including live demonstrations, practical protocols and basics of interpretation.

Participants may choose to attend both sessions on the same day, or split their attendance over two days (subject to availability).

Clinicians are encouraged to bring their nurse or technician to the course **free of charge**, to foster team-based learning.

Topics Covered

- Overview of investigation protocols for pediatric motility testing
- Data analysis and result interpretation
- Practical case examples
- Live, on-site demonstrations

Reserve your spot today – places are limited!

We look forward to welcoming you in Lille!
